"...When you get down to it, Mr. Guyger just plays solid, unadorned Chicago-style blues...no frills, but plenty of heavy stuff."

HARP ACE STEVE GUYGER RETURN WITH *RADIO BLUES*

a collection of tunes that were inspired by listening to the radio of the fifties and early sixties. Steve is considered by many to be a true master of the blues harmonica. Steve has been playing the blues for close to four decades. Over that time Steve has developed a signature sound but still manages to maintain the proper nod to the masters. The album also features the guitar work of Johnny Moeller the latest addition to the Fabulous Thunderbirds.
